

SCENARIO: CAR VS FENCE UNSTABLE

Friday, 03 June 2005

Crash Rescue

Training article for discussion by your crash rescue crews. Given the photos supplied in the article, print them out and discuss what you would do.

Scenario:

- Vehicle crashed landing on a fence with the front facing down
- The driver is trapped and the two rear seat passengers are still inside
- The road is to the left just out of camera in the photo

Discussion:

- What are your first priorities upon arrival on scene?
- What methods will you use to stabilise the car?
- How do you access the passengers and driver?
- What hazards are present?
- What would your initial SITREP be? Who else would you call for?
- How would you get the people out once access has been gained?
