

SCENARIO: CAR VS TRAIN

Saturday, 15 May 2004

Crash Rescue

Training article for discussion by your road crash rescue crews. Given the photos supplied in the article, print them out and discuss what you would do.

Scenario:

- Patient trapped by dash and doors on the train impact side.
 - Train was at full speed. Impact pushed car 150m along tracks.
 - How would you stabilise and provide access for Paramedics?
 - What hazards are present given a train is involved?
- What happens to the passengers on the train?
- How would passengers get off the train?
- How do you make space for extrication?
- Can you cut the pipes/cables at the front of the train?
- Have you done a job like this before?
