

SCENARIO: HEAD THROUGH WINDSCREEN

Sunday, 08 May 2005

Crash Rescue

Training article for discussion by your crash rescue crews. Given the photos supplied in the article, print them out and discuss what you would do.

Scenario:

- Single vehicle collision into a tree head on.
- Driver not wearing a seat belt moved forward hitting windscreen.
- Driver continued through window with her entire head caught by the windscreen.

Discussion:

- How do you protect the patient from further injury?
- What technique and equipment would you use to extricate the patient from the window?
