

## SCENARIO: ROLLOVER - PERSON TRAPPED

Sunday, 08 May 2005

Crash Rescue

Training article for discussion by your crash rescue crews. Given the photos supplied in the article, print them out and discuss what you would do.

### Scenario:

- Single vehicle collision. Car and trailer flipped onto roof.
- Driver is trapped in the front drivers seat, in seat belt.
- Trailer is carrying a lawn mower and spare fuel containers.
- Busy road winding through a mountain area.
- Patient is complaining of head injuries, a sore lower back and glass in eyes.

### Discussion:

- How do you protect the patient from further injury?
- What kind of stabilisation would you use?
- How does the trailer complicate this rescue?
- What method would you use to access the patient for the Paramedics?
- What extrication method would you use to remove the patient?
